*****FOR IMMEDIATE RELEASE*****

Ms. Sarah Shafer joins DAT/EM Systems Administrative Team.

Anchorage, Alaska, USA, May 2006 – DAT/EM Systems International is pleased to introduce and happily welcome Ms. Sarah Shafer as the new Office Administrator and Logistics Coordinator.

Sarah was born in Washington but raised in Anchorage. An occasional student at University of Alaska, Anchorage, she has not decided on a major but hopes to do something in the sciences; since joining DAT/EM she has even begun to consider Geomatics.

In her free time, Sarah enjoys reading, listening to music, photography, Latin dancing, writing letters, hiking, and spending time with her family and friends.

Sarah Shafer

DAT/EM Systems International, an Anchorage, Alaska based company, has been developing photogrammetric software since 1987. DAT/EM Systems International is a leading developer of photogrammetric software and hardware products and service. DAT/EM specializes in 3D stereo viewing and feature data collection software via its digital stereoplotter, Summit Evolution as well as its DAT/EM Capture product for virtually any analytical analogue stereoplotter. DAT/EM offers certified technicians, service and installation of analytical stereoplotters. The company's web site can be found at <http://www.datem.com>
