DAT/EM Systems SUMMIT EVOLUTION™ compatibility with AutoCAD®, MicroStation® and ArcGIS®

Anchorage, Alaska, USA, September 2005 – DAT/EM Systems International Support Department frequently receives calls and email inquiries from people wanting to know the compatibility of SUMMIT EVOLUTION with various CAD software packages.

Currently, DAT/EM Systems SUMMIT EVOLUTION Digital Stereoplotter is fully compatible with:

- AutoCAD, Versions R14 through 2006, including AutoDesk Map3D and Land Desktop
- MicroStation, Versions J, V8 and 2004 edition
- ESRI ArcGIS, Version 9

For more information, please visit our website at <http://www.datem.com> or email us at support@datem.com.

DAT/EM Systems International, an Anchorage, Alaska-based company has developed photogrammetric software since 1985. DAT/EM specializes in 3D stereo viewing and feature data collection software. Its products include the SUMMIT EVOLUTION™ digital stereoplotter and DAT/EM STEREO CAPTURE™, which allows for the SUMMIT EVOLUTION stereoplotter to digitize directly into ArcGIS®. DAT/EM CAPTURE allows stereoplotters to digitize directly into AutoCAD® and MicroStation®. DAT/EM also offers certified technicians, service and installation of analytical stereoplotters. The company's web site can be found at <http://www.datem.com>
